In addition to the above mentioned work performed, the members of the Bureau also rendered much assistance to local and out-of-town officers in exhibiting photos of criminals to victims of robberies, confidence games, pickpockets, thefts of automobiles, bank robberies and other robberies for the purpose of identification.

Copies of photos were made of persons wanted who were not previously handled by the Bureau of Identification. New photos were also taken of criminals previously on file, but who had not been arrested for a number of years.

During the year the Bureau established the modus operandi filing system of photographs of criminals for the purpose of identifying the criminal according to the manner in which the crime was committed.

All holdup men and women, burglars, forgers, pickpockets, shoplifters and

confidence games, etc., are listed in this file according to the crime and description of the individual.

Members of this Bureau visited the scene of homicides, robberies, burglaries and other crimes, as well as fires, for the purpose of taking photographs of the scenes and obtaining finger prints and such other data as could be used as competent evidence before the Coroner and the Courts.

This Bureau also assisted in every possible way the Post Office Department; Treasury Department—Secret Service Division; Treasury Department—Internal Revenue Division; Department of Justice and Government Officials. The Internal Revenue Division is furnished with two copies of photographs, with description and finger print classification, of every drug addict, or any persons arrested in connection with violations of the drug laws. They also co-operated with the Immigration Department and the Prohibition Division.

The Bureau of Identification has also been at the disposal of the American Railway Express Company and all railroads insofar as is consistent with their activities against criminals encountered by them.

### Traffic Division

One of the greatest problems confronting the large cities of the country today is the handling of the ever-increasing traffic congestion. Traffic has increased at such a tremendous rate that it is trying the minds of the best engineers of the country to cope with this situation. To the Police Department, whose duty it is to safeguard life and property, has fallen the task of regulating and expediting the movement of traffic to the greatest degree of safety to the public.

In order to cope with this problem the department maintains what is known as the Traffic Division, the personnel consisting of the following: Captain John Y. Goodin; Lieutenants Carl W. Johnson and Cliff D. Reber (Lieutenant Reber being assigned to the Motorcycle Squad); six sergeants, three of which are assigned to the Motorcycle Squad and three to traffic duty on foot; one hundred and thirty-two patrolmen and eleven probationary patrolmen, of which eighty-two officers are assigned to traffic duty on foot and sixty-one assigned to motorcycle duty. These, with six clerks, two telephone operators, one machinist and two utilitymen, comprise the entire personnel of this division.

The office of the Traffic Division is located on the second floor of the Police Headquarters Annex, 108-110 South Twelfth boulevard.

The traffic officers report for roll call at the station houses most conveniently located to their places of assignment. The officers of the Motorcycle

Squad report for roll call and occupy quarters in the police garage, located at 3915 Laclede avenue.

The officers of this division, besides performing their regular duties, have policed special details to the number of 632 during the past year. They have also made 43,547 arrests, of which a large percentage were for traffic violations.

There are at the present time one hundred automatic traffic signals installed at various street intersections throughout the city, six of which were wrecked, all being of the single unit type, and have not been replaced up to the present time. There are fifty-two single-unit, forty-seven four-unit and one three-unit type signals.

It requires the entire time of the one machinist and two utilitymen assigned to this division to maintain and keep these signals in the proper working condition as they operate twenty-four hours a day. There are on hand seven complete single-unit type and six four-unit type signals which have not been installed.

## OFFICE OF THE INSPECTOR OF POLICE

The following personnel constitutes the office of Inspector of Police:

Major William R. Walton, Inspector of Police	William Stinger, Field Captain
1 Sergeant	1 Stenographer
2 Patrolmen (1 Uniform Inspector)	

Through the office of the Inspector of Police a mass of detail work passes, consisting of applications for lost time, to retain rewards, employ counsel, file civil suits, retain gifts, etc., all carrying a report or indorsement of the Inspector, after an investigation has been made to determine the status of such applications.

Perhaps the greatest and most pronounced function of the office of the Inspector of Police is to adjudicate the matter of complaints lodged against members of the department, which are manifold and diversified, some being of a trivial nature, but nevertheless causing the office to act as a clearing house for every matter concerning the inefficiency of a civilian employe or misconduct of one of the rank and file, each case necessitating a report to the Chief of Police for his information and the guidance of the Board.

In addition to the regular routine of the office, tours of inspection are regularly made to the various districts by the Inspector of Police, as well as preparing all charges, subpoenas, etc., fixing dates of trials before the Board and prosecuting such charges.

A general idea of the nature of the various detail matters handled by the Inspector's office can be gained after a perusal of the following data:

The field captain makes special investigations, etc., at the direction of the Inspector, and assists in inspections, tours and examinations held.

The uniform inspector inspects all uniforms, hats, caps, leggings, etc., worn by members of the department, delineates the specifications as to quality, workmanship, etc., of the uniforms purchased for the use of members of the department; arbitrates the matter of applications for reimbursement for damage to uniforms and paraphernalia while in the discharge of police duty, and officiates as sergeant-at-arms in the preservation of order and decorum at all meetings of the Board of Police Commissioners. A clipping bureau is maintained by him, in which are preserved clippings from local metropolitan papers bearing on police activity and otherwise.

## THE POLICE JOURNAL

The Police Journal is the official organ of the Board of Police Commissioners and of the Police Department. It began the seventeenth year of its existence on April 7, 1928. It is a weekly newspaper, seven by ten inches, averaging twelve pages. The object of printing a paper of this kind is to keep the officers and employes in close touch with everything that is transpiring in the department and elsewhere which it is to their interest to know, and to assist in welding the department into a harmonious and more effective unit for the prevention and eradication of crime in this community. All new ordinances affecting the department are published in the Journal, as are the proceedings of the regular weekly meetings of the Board of Police Commissioners. Whenever an exceptionally good arrest is made—police duty that stands out above the ordinary, everyday routine cases made by members of the force—the Journal prints the particulars of the case, giving the officers concerned full credit for their good work, thus encouraging other officers to be on their “toes” and do all in their power to perform similar service. The Journal also publishes many letters of commendation from citizens and visitors who are appreciative of the good work of the department.

“Efficient Police Make a City of Peace,” is the slogan of the department. It was donated by Mr. G. H. Palin, of New York City, in 1924, for exclusive use of the Police Journal. It is being lived up to in a manner that is most convincing to those who are aware of the great handicaps under which a police department functions, not to mention the great hazards taken by officers daily in protecting the citizenship of any community against bandits. Officers of the department are not forgetting this apt slogan. Their splendid work in preventing crimes and in arresting violators after offenses against the law have been committed amply verifies this. The work of the officers of the department in stamping out crime in this community has improved yearly, and the publicity given good arrests in the department's paper has spurred the men on in their never-ending war against crime and criminals.

The Journal prints 3,500 copies a week. It has a mailing list which includes police departments of other cities, public libraries, sociological organizations and reputable citizens who are intensely interested in police work. So far as known it is the only weekly newspaper of its kind in the world. It is issued gratis to members of the department and others who have need for a publication of this character.

## POLICE BAND

The St. Louis Metropolitan Police Band was organized in September, 1921, with seventeen members and has since grown to an organization of thirty-eight members, and has developed into a musical organization second to none in the city. The uniforms and instruments are furnished by the Board of Police Commissioners, each member being responsible for his uniform and the instrument he plays. The officers of the band are as follows:

Lieutenant William L. Henry, Eighth District, President and Vice-President.  
 Patrolman Fred H. Windmoeller, Central District, Assistant Leader.  
 Lieutenant James J. Moran, Third District, Drum Major.  
 Patrolman Harry G. Ziegler, Seventh District, Secretary and Librarian.  
 Patrolman Edward Schlewing, Traffic Division, Color Bearer.  
 Patrolman Henry Bruns, Traffic Division, Banner Bearer.

Professor Henry J. Falkenhainer, one of the most capable band leaders in the city, and a member of the St. Louis Symphony Orchestra, is band leader and instructor, and through his untiring efforts the police band has developed into one of the best musical organizations of its kind in the country.

Rehearsals are held each Tuesday from 2 to 5 p. m., at the Eleventh District Station. The band always attends funerals of deceased officers, except in a few instances, where the family of the deceased officers do not desire the services of the band, which has only been on one or two occasions.

## THE POLICE TRAINING SCHOOL

The school is located on the fourth floor of the Police Headquarters Annex Building, at 110-112 South Twelfth boulevard.

A total of 101 probationary patrolmen attended the school during the past year, two of whom were dropped from the rolls while attending school.

On March 12, 1928, the Police Training School was reorganized and the method of instruction was changed. The course of training was extended from four to six weeks. Text books were eliminated and instruction by lectures was substituted. A daily schedule of eight hours is still maintained. Competent instructors connected with the Police Department lecture new recruits on The Constitution, Government, Criminal Law, City Ordinances, Organization and Duties of Policemen, City Police Geography, Tours of Observation and Inspection, etc. Special training in the Construction of Official Reports, State and City Traffic Laws, First Aid Instruction is given a prominent place in the course. Experts from the Tracing Bureau, Bertillon Room and Auto Theft Bureau explain the respective activities of their divisions. Drill, target practice and instruction in the proper handling of firearms, and physical training receive special attention. An extensive gymnasium course is required of all officers who have joined the department during the last two years.

---

### First Aid Lectures

Lectures in First Aid work are given throughout the department and are taken from the regular Red Cross First Aid course, consisting of fifteen lectures. Two months' time is required to deliver one lecture to every platoon in each district, division and bureau. Every student officer while attending the Police Training School receives three lectures a week and must finish the complete course before being assigned for beat duty.

Approximately 345 lectures have been delivered during the past year, each consisting of actual demonstrations in applying first aid to the injured as well as instructions.

Every member of the force is required to take these lectures and the regular Red Cross certificate will be awarded at the end of the course.

Since the First Aid lectures have been inaugurated in the department a greater interest has been shown by officers in giving first aid to the injured and there have been numerous cases brought to the attention of the instructor where lives have been saved by the knowledge of first aid which the officers obtained from these lectures.

---

### Physical Course

"Every action of the body is first an action of the mind," whether it be in solving an everyday problem or following the actions of an athletic director. The mind cannot find expression except through the body.

Physical education is now an imperative part of our Police School curriculum and attendance for the forenoon and afternoon shifts is compulsory.

The physical training schedule is so arranged as to be of practical value to the members of the force and comprises the following subjects: Calisthenics, jiu jitsu, club fencing, running, vaulting, boxing, scaling, swimming and run and drop shooting.

The gymnasium activities conducted during the fall and winter seasons show an enrollment of 330 police officers. All officers enrolled are examined annually on the above-mentioned subjects as a test of their physical fitness.

During the summer season of 1927, the department was represented in the National Police Meet at Chicago. Our representatives rendered a very excellent account of themselves.

The selected tug-of-war team of the department also won the highest honors this year at the annual Caledonian celebration and games held in St. Louis.

## Office of Drillmaster

The following personnel constitutes the office of the Drillmaster:

- 1 Drillmaster
- 1 Sergeant, acting Assistant Drillmaster
- 1 Patrolman, Instructor and acting Armorer (attached)
- 2 Patrolmen, Instructors in Shooting (attached)
- 1 Clerk

The Drillmaster has charge of the training and drilling of the members of the force in prescribed military tactics and in proper handling of all firearms. It is his special duty to impress upon the members of the force the necessity of maintaining at all times a soldierly bearing, discipline, military neatness and promptness in the discharge of their duties. He also has charge of the classes of students of the School of Instruction for one hour and fifteen minutes each day during their six weeks training at the School, instructing them in military drills, courtesy, discipline, neatness, the art of self-defense, searching of prisoners and the disarming of armed criminals and the use of firearms. All students are required to qualify as first class in the department marksmanship course before leaving the School of Instruction.

All districts and also the Traffic Division are drilled and inspected by platoons once a week, a half hour before the regular roll call. The drilling is in charge of platoon commanders assisted by the Sergeants of the platoon. This drill consists of the School of the Soldier, and a thorough inspection of uniforms and revolvers. Each of these platoons is inspected on an average of once a month by the Drillmaster or his assistant, who inspects a different district each day.

The Drillmaster has charge of all funerals, where members of the department receive military burials. He also supervises and arranges various schedules, such as First Aid lectures, etc.

Under the direction of the Drillmaster the entire force received intensive instruction in marksmanship. Every member of the rank and file of the department is required to participate in this practice and must continue until they have made a required score of at least 180 points out of a possible 300 points.

During the annual revolver target practice the Drillmaster is assisted by three officers who act as instructors and who are attached to the target range from their respective districts. These officers reload all ammunition used in the annual target practice and inter-district matches, reloading ammunition between the time when classes are scheduled to shoot and on days when there are no classes scheduled. One of these instructors, who is acting armorer, repairs all revolvers of members of the department and also looks after all firearms, property of the department.

Because of the increased efficiency of the shooting of the force as a whole, during the past two years, the Board of Police Commissioners inaugurated real police shooting or time and rapid-fire shooting, i. e., firing one or more shots quickly and accurately, and also increasing the range distance from 12 to 15 yards.

The following is the qualification course during the last season's shoot:

Range:

15 yards.

Course:

Two scores of five shots each, slow fire, one minute per shot.

Two scores of five shots each, timed fire, 30 seconds per score.

Two scores of five shots each, rapid fire, 15 seconds per score.

Targets:

20-yard Standard American target for slow and timed fire. Colt's silhouette target for rapid fire, counting the kill shots only. This is a man figure moving target, size 20x30 inches.

## Qualifications:

	Scores necessary to acquire this rank.
Expert .....	255
Sharpshooter .....	240
Marksmen .....	220
First Class .....	180 (Qualified)

The following are the results of last season's shoot, held during the months of November and December, 1927, and January and February, 1928:

					Excused Physically Disabled	Total Shooting
Experts	Sharpshooters	Marksmen	First Class	Failed		
53	52	143	714	804	72	1757

The three Commissioners' Medals for 1926-1927 shoot, issued for individual revolver championship of the Police Department by the Board of Police Commissioners, were awarded to the three best revolver shots of the department, as follows:

The gold medal to Patrolman Frank W. Evans, of the Fourth District.

The silver medal to Patrolman Martin J. Semon, of the Twelfth District.

The bronze medal to Patrolman James Watkins, of the Mounted District.

The inter-district competitive team matches held during the summer months of 1927 were won by the Eighth District revolver team, each team consisting of seven officers. The Eighth District team was awarded the bronze revolver district championship plaque, and also the championship banner. This banner was previously held by the Sixth District, who won the revolver team championship in 1926.

During the past year, under the direction of the Drillmaster, the department entered a revolver team in several important shooting matches. In one shoot, held by the Missouri State Rifle Association at Jefferson City, Mo., the department team won the Missouri State Revolver Team Championship Trophy, consisting of a silver loving cup. The members of this team also entered individual revolver matches, winning all the first place medals.

A department team was also entered in the National Matches, held by the United States Government at Camp Perry, Ohio, where they won fifth place in the National Police Team Revolver Championship match. The members of this team, while at Camp Perry, entered several individual matches and also attended the Small Arms Firing School conducted by the United States Government, receiving certificates of proficiency in the handling of small arms, pistol marksmanship, sub-machine gun, gas and disarming methods.

## ST. LOUIS POLICE PENSION FUND ASSOCIATION

In 1907 the St. Louis Police Force consisted of 1,692 men and now consists of 1,849 men, the total increase in 19 years being 157 men. Out of the present force, limited by law to 1,849 men, there were on July 1, 1925, 190 men 60 years of age or over—70 of these being over 65 years of age and some over 80 years of age. Many of these men, as disclosed by physical examination, were physically unfit to perform police duty. These unfit men had been permitted to remain on the force because there was no pension system and to dismiss them meant to turn them out of the only job they knew, without support in their old age. As the numbers on the force were limited by law, no increase could be made and these old men held places which should have been filled by capable young men, and their retention lowered to a marked degree the efficiency of the force.

In order to relieve this very unsatisfactory condition, the Police Board in September, 1925, with the co-operation of the members of the force, organized a corporation known as St. Louis Police Pension Fund Association, the purpose of which was to make possible the immediate pensioning of men totally unfit for police duty and to pave the way for a real pension system. The sole support of this association is the voluntary contributions by members of the force of five per cent of their monthly pay. Following are the officers and Board of Trustees:

Col. Joseph A. Gerk.....	President
Capt. Patrick Kirk.....	Vice-President
Sergt. James M. Mackin.....	Secretary
Patn. Paul J. Schultz.....	Treasurer

### TRUSTEES

Joseph A. Gerk	James M. Mackin
Patrick Kirk	Paul J. Shultz
James J. Moran	Allen C. Orrick, Ex-officio
	Henry Kortjohn, Jr., Ex-officio

The first member pensioned was on October 31, 1925. Meetings of the association are held in the office of the Chief of Police on the fourth Tuesday of each month.

Upon the organization of this association, the Police Board proceeded to retire a number of men who were absolutely incapacitated for police duty, and at present there are enrolled as beneficiaries of this association 45 former police officers, 25 widows of officers, one mother of an officer and 20 minor children under the age of 16 years. While these retirements have improved the situation, the fact is that there are many men still on the force who are no longer fit for active police duty and should be retired; but their retirement would constitute too heavy a burden upon the present temporary pension system, supported as it is entirely by contributions from the members of the force.

The 5 per cent dues is a heavy tax on the members of the force. To meet the emergency the Board undertook to get behind a movement to secure the adoption of a constitutional amendment permitting the use of public funds for police pensions, and which would result in placing the pension upon a permanent basis.

This amendment was necessary because the Constitution of Missouri, as construed by the Supreme Court, prohibited pensions to policemen.

Police pensions were authorized by law in nearly every city in the country having a population of 100,000 or over, except in St. Louis and Kansas City.

Sufficient signatures were obtained to place this amendment on the ballot for the election held November, 1926, and the necessary petitions were filed with the Secretary of State.

The official vote of the 114 counties of the State of Missouri and the City of St. Louis on Proposition No. 2 (the Police Pension Amendment) resulted in its passage by a majority of 246,184, as follows: For, 523,634; against, 277,450.

A bill providing for police pensions for the City of St. Louis was presented to the Legislature which met in January, 1927. It passed the House of Representatives, but was permitted to die in the Senate as the result of a filibuster. Bills providing for police pensions for Kansas City and St. Joseph met a similar fate.

Petitions have been filed with the Secretary of State to place this bill on the ballot for the election to be held in 1928.

The fourteen district stations are all equipped with common battery switchboards with approved storage battery and battery charging equipment; also with automatic flashing device for flashing the red signal light, with which each of the patrol boxes is equipped.

Connected with Police Headquarters switchboard, located in Police Headquarters Building, are trunk lines to each of the fourteen district station switchboards.

Connected with each district station are trunk lines to the adjoining switchboard. In the event that Headquarters switchboard direct trunk line to a district station should be out of order the Headquarters switchboard may connect with the disabled district through the adjoining district and may in such manner give satisfactory service until the direct trunk line is repaired.

Connected with the department switchboard are 740 telephones, 627 of these being in patrol boxes; also a like number of red signal flashlights.

During the year three additional patrol boxes, equipped with recall flashlights, have been added. The recall flashing is effective by employing the 125-volt lighting current, properly regulated by transformers, the flashing being done over the telephone talking circuit.

Teletype receivers are installed in each of the fourteen district stations and in the Secret Service Bureau; also two transmitting teletype machines are installed in Room 37, Police Headquarters Building.

Necessary new work, repairs and general maintenance of the police telephone, patrol and flashlight service has been given prompt and courteous attention by the Fire and Police Telegraph Department.

The City Light, Heat and Power Branch has also responded to requests for new work, materials and repairs.
